Local organizers inform us that there aren't many spots left for volunteers, but ask anyhow at Tuesday's meeting. Fly tyers and general club information providers have been needed in the past.

*Fly of the Month*

## Electric Purple Dressing

**Rib:** Thin gold wire (optional for durability)

**Tag:** Large Mirage Tinsel

**Butt:** Red (but looks pink) Legartun mini-flatbraid

**Hackle:** Palmered

**Body:** Spirit River Lightning Dub Hot Purple

**Wing:** Angel Hair – Electric Purple tied “just proud” of the hook bend

**Horns:** 4 strands of Mirage Flashabou (purple or plain) 1.5 x hook length

**Collar:** 2 turns of Purple Guinea  
I have added Jungle Cock to the larger sizes. It looks great to me but I’m not sure the steelhead care.

## The Electric Purple

By Steve Egge

I was shown this fly by Garry Sandtrom at the Morning Hatch Fly Shoppe. He didn't have a name for it but talked about how good it looked in the water. I tied some up and not only does it look good, it catches steelhead! It is now my number one fly. It is interesting that it is very similar to Dec Hogan's "No Name Summer Fly," but there are enough differences for me to just call it the Electric Purple, for that is how it looks in the water.

Try not to substitute materials. The fly as tied looks absolutely amazing in the water. It seems to glow on overcast days and this gives me the confidence needed in steelheading. I've tied it from 1/0 to size 8, but I have done the best on a size 6 which resulted in a three-fish morning on the Deschutes in September.
